## PLAYERS AND COACHES: KEY LANGUAGE TO GET ON THE SAME PAGE

### BREAKDOWN

Tackler not in the way of ball Tackle-Assist (part of tackle) release ball & body

Jackler in a position to LIFT the ball (arriving square to goal-line)

Cleaners in a position to drive jackler or protect ball with feet on ground (not falling on players)

Counter-ruck threat? Both sides arrive square to goal line & in position to move opponent

### SPACE

Pillar defenders' hands & feet clearly behind the hindmost foot

Mid-Field defensive line starting clearly onside (daylight)

Linespeed timing of shooters (start onside + ball is lifted)

Players In-Front not in way & actively moving to get back in the game (behind ball)

### SET PIECE

Scrum Setup aligned to the left & maintain a strong, comfortable position throughout

Scrum Dominance means strong setup & go-forward on both sides of scrum

Lineout Setup front lifter arrives early to maintain gap + all players in without delay

Maul Dominance means catcher in front, ball transfer, ball carrier bound + go-forward

### MANAGEMENT

Head Contact: tackler bent at knees & hips (hit below the ball)

Under Pressure: high accuracy needed from team going backwards

Officials MOVE & Position: out of the way of ball, defender and support players

Communication: Primary signal (the WHAT) PK, FK or Scrum; Secondary signal (the WHY) infringement

### CONTEXT

Pressure Gauge: Accuracy after Linebreaks, Mismatches and near Goal-Line

Microscope: Player under pressure is clearly legal (contact & decision to compete)

Expected Outcomes: understanding 'Big Picture'

Law Application: Head Contact, In-Goal, Touch law
